Blacksburg, VA 24060   **McLean, VA 22102**

Apartment 259

OBJECTIVE

Sophomore at the Virginia Tech College of Engineering studying computer science looking to attain an internship that allows me to use my passion for coding, with a focus in software development.

SKILLS

- Proficient languages: Java, SQL, JavaScript, HTML, CSS, PHP
- Familiar with platforms: MySQL, Postgres, React, Node, Bootstrap, MongoDB

PROJECTS

- Created an automated test suite program in Node to expose backend bugs before every deployment at software development company Triblio (June 2018 - September 2018).
- Started a web and mobile application called Rate My Dining Halls in React and Node.
- Created a program in Java and SQL that uses natural language processing to learn and form sentences to study machine learning.

RELEVANT EXPERIENCE

Triblio   **June 2018 - September 2018**

Software Development Intern   Reston, VA

- Conducted quality assurance tests with Protractor, Selenium, and Node.js
- Created a library of functions that could be called for retrieving data, inputting data, and more to standardize their automated test suite in Node.

Rate My Dining Halls   **July 2020 -**

Founder and Lead Software Developer

- Web and mobile app which allows people to review food at American universities.

ACTIVITIES & ORGANIZATIONS

Delta Psi Nu   **February 2020 - present**

Leadership Fraternity at Virginia Tech   Blacksburg, VA

EDUCATION   **August 2019 - present**

B.S, Computer Science at Virginia Tech, Blacksburg, VA

In-Major GPA: 3.64, Cumulative: 3.13

Expected Graduation: Spring 2023
